**Giclée**

*The name of a limited edition inkjet reproduction of an original photograph. It is printed on artistic quality acid-free coated paper using pigment inks that are stable to light and that have a longevity of 75 years.*

*I print mainly on Hahnemühle, the oldest German paper mill producing papers for*

*analogue and digital artwork. They have been producing fine art paper for over 420 years. These are 100% cotton or fibre acid-free natural papers that guarantee*

*permanence and provide a superb finish.*

*The print range includes papers and canvases of different weights and surface structures in matte or glossy finishes. It combines the precision of digital printing with the beauty and texture of fine art paper of traditional manufacturing.*

*Sizing Note: Most sizes within the range above can be created to suit a particular image and dimension. Usually prices will fall between the 'standard' sizing quoted for specific requests.*

*Prices are inclusive of tax, plus postage, packaging and presentation.*

**Pigment (Ilford Gallery Premium) Pricing**

Dimensions cm		Print Type	Price €

**Pigment Prints**

*Prints made on resin-coated papers using pigment inks instead of dye inks. The result is a print with very good archival print life and colour stability.*

*I print mainly work with papers made by Ilford, a company with extensive experience*

*in the silver halide technology, which has led them to the development of photo paper*

*for inkjet printing.*

*permanence and provide a superb finish.*

*The print range includes papers and canvases of different weights and surface structures in matte or glossy finishes. It combines the precision of digital printing with the beauty and texture of fine art paper of traditional manufacturing.*

*Sizing Note: Most sizes within the range above can be created to suit a particular image and dimension. Usually prices will fall between the 'standard' sizing quoted for specific requests.*
